

Thank you for downloading

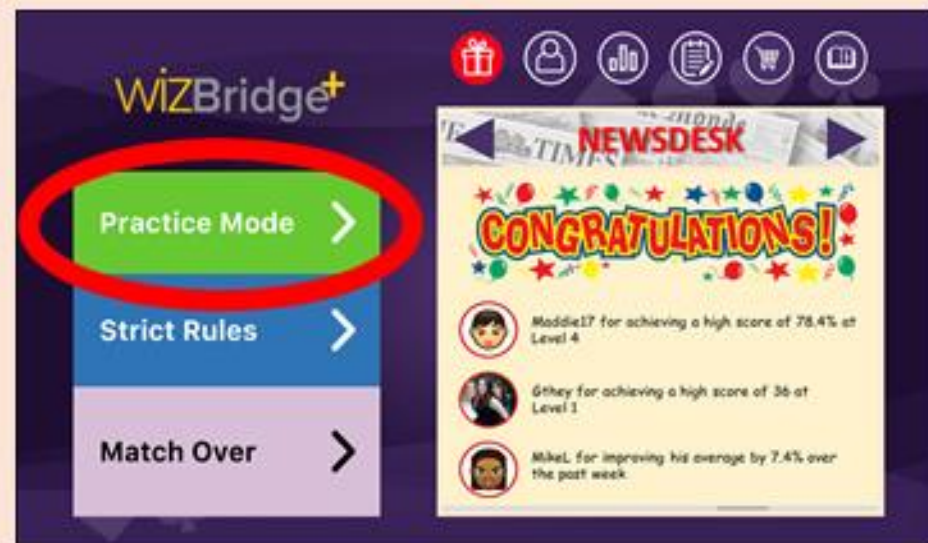

wizBridge⁺

Just a short 'intro' to help you
use, and enjoy, this innovative
new game.

We strongly recommend that you start off by playing a few sets in Practice Mode

Then choose your level

Use the info buttons to explain the aims of each level

And for a fuller explanation for each level, read the dedicated documents, with hints, tactics and more

Once you've got the hang of it, progress to Strict Mode to start to build up your Statistics

Remember. With **WizBridge+** you're playing on your own. It's just you, and a powerful card-playing AI. So there's no one laughing if you make a mistake ...

And before you know it, you'll become an absolute master of the game.

Most of all ... Enjoy it!
