

Thank you for downloading

wizBridge⁺

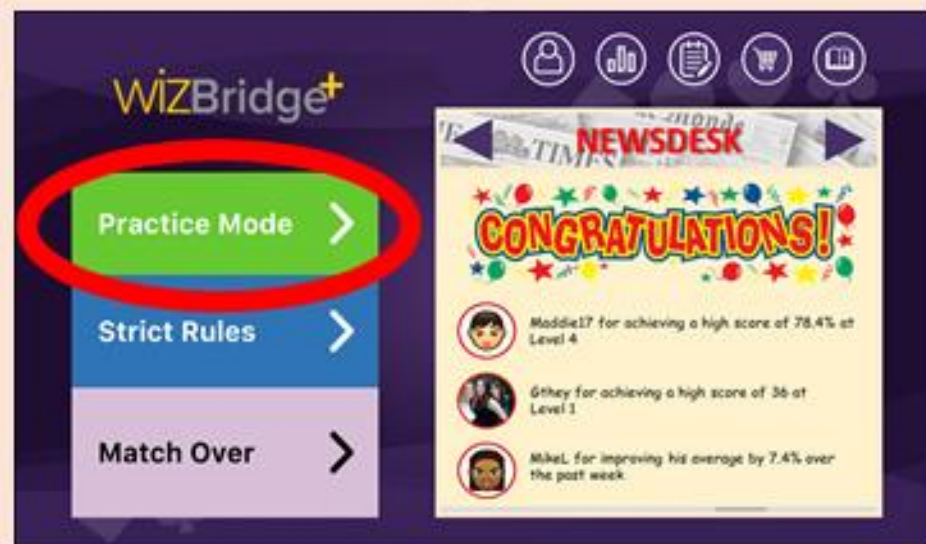

Just a short 'intro' to help you
use, and enjoy, this innovative
new game.

We strongly recommend that you start off by playing a few sets in Practice Mode

Select Practice Mode

Then choose your level

Use the info buttons to explain the aims of each level

And for a fuller explanation for each level, read the dedicated documents, with hints, tactics and more

Once you've got the hang of it, progress to Strict Mode, and start to build up your Statistics

Remember. With **WizBridge+** you're playing on your own. It's just you, and a powerful card-playing AI. So there's no one laughing if you make a mistake ...

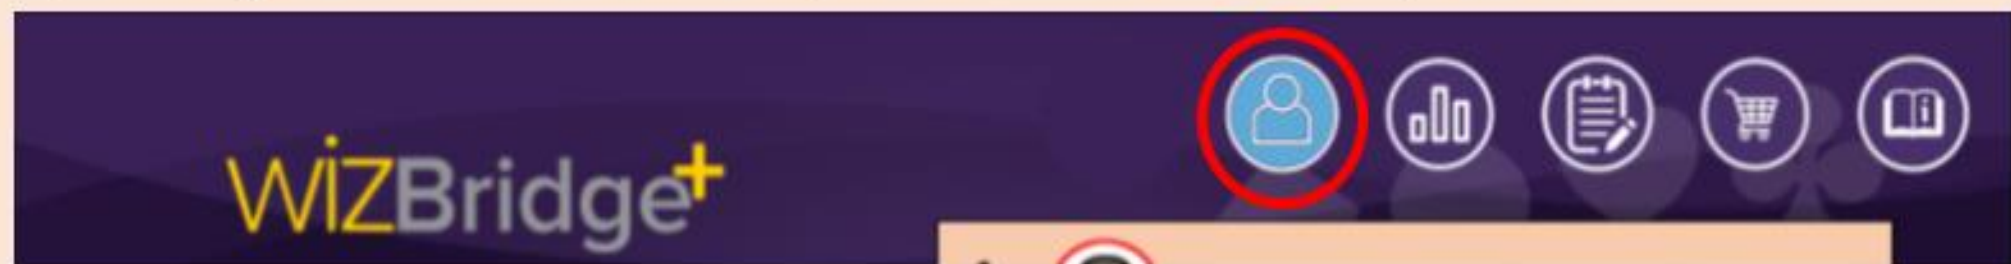

And before you know it, you'll become an absolute master of the game.

But just one minute ...

... you are still not registered 😞 This means that you cannot take part in Duplicate, nor personalise your app. We require the bare minimum information from you, and you have our absolute promise that we will not pass your details on, nor bombard you with emails.

So select 'my account' and register, to enjoy the full features of the app, (not to mention the **FREE 100 hands** that you get on registering 😊)
